March 20, 2003

Sullair is pleased to announce the appointment of A & M Compressed Air Products – one of New England's leading compressed air solutions providers – as our authorized distributor throughout Connecticut and Massachusetts. A & M Compressed Air Products is now your authorized source for Sullair equipment, parts, service and warranty support. We encourage you to contact A & M Compressed Air Products for all of your compressed air needs.

There are many good reasons why we selected A & M Compressed Air Products to represent the Sullair brand. We believe that these and a host of other reasons will support *your* decision to work with A & M Compressed Air Products as well:

- A & M Compressed Air Products is one of the most successful industrial compressed air businesses in New England because they combine the superior value of Sullair's products with a long history of exceptional local support, product availability, technical expertise and the service you would expect from such a professional organization.
- A & M Compressed Air Products carries the full line of Sullair industrial compressors, 5 to 600 hp; Sullair Oil Free Compressors; as well as Sullair compressed air dryers, filters, drains and vacuum systems. A & M Compressed Air Products can offer you Sullair's complete value package, which includes 5-year, 5-year Ultra and 10-year 24KT warranties... experienced, factory trained service technicians and on-site assistance... and the Genuine Sullair Replacement Parts and Fluids your Sullair equipment requires for optimum performance.
- Perhaps most important of all, A & M Compressed Air Products can provide you with the highest level of warranty protection. An original Sullair factory warranty is your best assurance of total equipment protection and peace of mind. As a unit of United Technologies Corporation, Sullair offers you warranties backed by both the leadership and technical expertise of Sullair Corporation and the resources of UTC.

A&M Compressed Air Products is committed to upholding Sullair's high standards of quality and service, and to providing you with all the benefits that Sullair equipment ownership conveys. We invite you to call A & M Compressed Air Products Inc. toll-free at 1-800-634-3345 today.

Sincerely,

Richard W. Stasyshan
Vice-President & General Manager-Industrial Products
